

AVEO

Fresh and vibrant, the Aveo combines innovative design with a crowd-pleasing floor plan. Immediately on entrance is a compact study nook which offers great convenience for families with children at school. Further in, a conjoined kitchen and dining area delivers plenty of room for any sized family while an elongated alfresco creates a novel opportunity for social gatherings or simple relaxation. Topping the design off is a double garage which can be used to house two cars or for extra storage space.
