22. Future train station
23. Existing train station

The publishers have taken care to ensure that these plans have been prepared from all currently available information. However, allotment dimensions, easements, landscape treatments, final road layout and public utility service infrastructure locations and zoning are subject to change conditional on satisfactory authority approvals. The purchaser should therefore make their own enquiries before entering into any contract. The measurements on each block indicate boundary lengths and widths and are rounded down to the nearest hundredth of a metre. Prepared May 2016.
