

BUYING A RAWSON HOME & LAND PACKAGE

Understanding the Appointments Process

At Rawson, we think that the best part of buying a new home is making it your own. No matter what your budget, those personal touches can make all the difference to the enjoyment you get when you move in. In the lead up to the registration of your land, we will be in contact to arrange each of the following appointments:

1. Internal Colours & Electrical Appointment

This is the big one – get ready to have some fun! Our team of colour consultants will walk you through each room in your new house and help select the colours, fixtures and fittings of your new home.

Just like the external colour schemes, you might like to start with one of our stylish internal colour schemes. They're here to make the process simpler for you.

The appointment will also cover your electrical layout. Have you ever found that the power point is never in the right place to get the vacuuming done? Well let's get it right together. We'll help place the power points, lights, TV and phone points through your house that will let you live the way that best suits you.

2. Tile Appointment

The name might give it away, but that doesn't mean it's not important. The tiles you select for your bathroom, kitchen and living areas will create the canvas on which you'll paint your own masterpiece.
