Trask Land is one of the most respected family construction businesses in Queensland, with a team of creators passionate about supplying premium communities and living environments for Queenslanders.

Our design methodology is consistent and simple:

Locate land in emerging growth areas with easy access to transport, schools and amenities - locations where we as a family would like to live.

Create a master-planned environment, individual in character, with facilities that add to the value of your home and your day-to-day lifestyle.

Develop sustainable landscaped environments, retaining trees and vegetation and building aspirational entry statements and features that clearly say: 'you have arrived'.

Build great homes designed and styled for Queenslanders. Homes that allow great communities to grow and flourish over time into destinations in their own right.
